# ATMs REFLECT YOUR BRAND PROMISE

The ATM is the most critical public face of channel banking - it is one of the biggest brand ambassadors for the bank.

ATM network management today is becoming increasingly complex in an ever more cutthroat business environment. Clients expect more services at the ATM, merging in bank and online banking experience. Digitization has compelled banks to rethink their ATM management strategy. How to stay ahead in the race, complying with regulations, delighting the customers, while keeping a tab on costs?

The most exciting factor regarding ATMs is that there is a new era of opportunities for upgrading any ATM network as a core channel in the redefined banking landscape of today and the future. Hence, banks are increasingly upscaling their ATM strategy and operations to drive business value and competitive advantage.

**THE ONLY WAY FORWARD IS TO PARTNER WITH EXPERTS WHO UNDERSTAND THE BUSINESS AND INDUSTRY COMPLEXITIES.**

# ABOUT SENIOR SOLUTIONS

Senior Solutions is a Facility Management Company specialized in Facility Management Services, Housekeeping, Man Power, Security provider, and Logistics. Since our inception in 2010, we are committed to deliver the highest level of service to our customers.

Our services provided to our clients with multiple options of the right mix of transit options, cost analysis, and shipment visibility to meet their requirements. We ensure the right vehicle for the product, provide full audit trails, and manage the whole process so that shipment delivers when and where it is needed.

After more than a decade of being a trusted partner to several corporate entities, Senior Solutions has now forayed in another high specialization sector - ATM Management.

**ACCENTUATE ATM CUSTOMER EXPERIENCE STANDARDS WITH OUR INNOVATIVE AND SEAMLESS ATM SERVICES.**

# MULTIMODAL TRANSPORTATION SOLUTIONS

We offer optimized Multimodal Transportation Solutions by combining several transportation modes across road, sea and air. These modes include conventional as well as containerized railway options. Combining these modes effectively helps reduce cost and ensure safe movement of large volumes.

# ATM SECURITY SERVICES

## Security Guard

Security Guard secures premises and personnel by patrolling property, monitoring surveillance equipment, and access points. Investigates security breaches, incidents, and other alarming behavior. Controls traffic by directing drivers.

## Security Camera

Cameras are planted for recording an image of an object on a light-sensitive surface; it is essentially a light-tight box with an aperture to admit light focused onto a sensitized film or plate.

## IT Security

Cybersecurity strategies that prevents unauthorized access to organizational assets such as computers, networks, and data.

# HOUSEKEEPING SERVICES

Housekeeping is an operational department of the Company. It is responsible for cleanliness, maintenance, aesthetic upkeep of rooms, public areas, back areas and surroundings.

In spite of its importance, however, employees in this department are underpaid and overworked, which usually results in a very high turnover rate.

## Removing

- Removal of Cob-Webs.
- Cleaning of the furniture.

## Cleaning

- Contact for all maintenance updates of the ATM.
- Dusting of Poster frames.

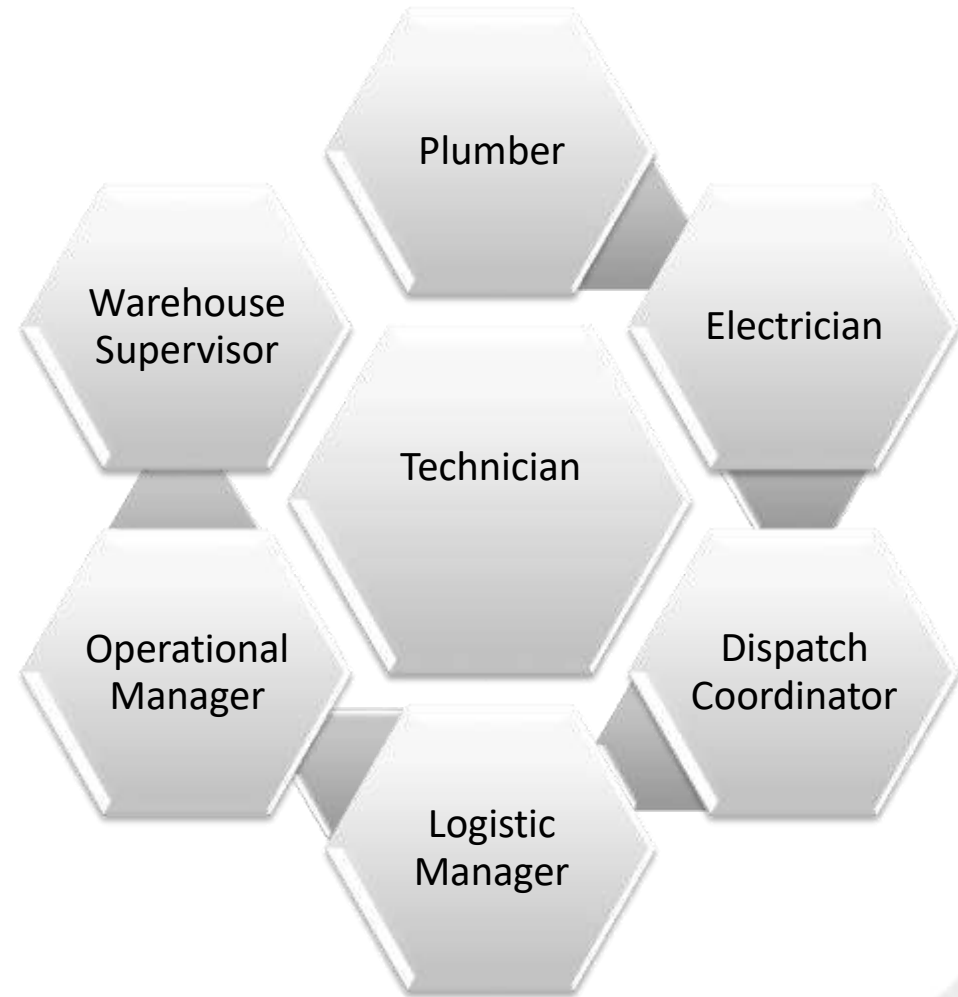

## Maintaining

- AC Vents, Writing Ledge, ATM Machine.
- Wet Mopping of the floor and entrance to the ATM Site.

# MANPOWER

Manpower Planning which is also called as Human Resource Planning consists of putting right number of people, right kind of people at the right place, right time, doing the right things for which they are suited for the achievement of goals of the organization.

This helps the organization be prepared for the future with the correct manpower at their disposal for business prosperity.

# SAFETY MEASURES WE FOLLOW IN THE WAREHOUSE

**MANUAL LIFTING/HANDLING** is the most common cause of physical injuries in warehouse and storage facilities involves improper manual lifting and handling. Failure to follow proper procedures can cause musculoskeletal disorders, especially if done with awkward postures, repetitive motions, or overexertion.

**CAMERA INSTALLATION** ideally composed of members from different departments as frontline ambassadors of safety on the warehouse floor.

**IMPLEMENTATION SAFEGUARD** Keep secure from potential danger for mechanical power-transmission apparatus such as machine guarding, regular inspections, and proper lubrication.

**MATERIALS STORAGE** Improper stacking of loads and storage of materials on shelves can result in unintended slip and trip hazards for nearby workers. Loads should be placed evenly and properly positioned, heavier loads must be stacked on lower or middle shelves. Always remember to remove one load at a time.
